TRAINING & PROJECTS

Project:-

Designed and programmed – Sign language to Text Converter
. MAY 2022.
. Which will help us to understand the Specially abled persons.

Designed and programmed - Student Expense Tracker.
. OCTOBER 2022.
. That helps a student to manage his/her expanses of the month in a better way.

Designed and programmed – Weather Monitoring System.
. MARCH 2023.
. That will provides us information on the variations in humidity, temperature, and wind level in the exact region.

Patent:-

Invented and presented - Whatsapp Link Analyser

Filled by me further process is going on
Summary - As we all know that in the present version of WhatsApp, we can check only one thing who has seen the message or who doesn't after sharing the information. It isn't easy to know whether who has opened the information or not.
It will save a lot of time for the teachers by checking by automatically creating a list of students in WhatsApp rather than opening the drive again and again and making the list manually.
It is also easier for teachers as well as students to keep their records.

Trainings:-

Programming in Python.

Excel Statistics Essential Training.
